Target version:		Spent time:	0:00 hour
Description			
Story			
As a user, I want to search personas by concept so that I don't need exact name matches.			
Acceptance Criteria			
<ul style="list-style-type: none">• EmbeddingService using nomic-embed-text model• vector(768) column in personas table• cosine distance search via <=> operator• Roster.vue with natural language search bar• EmbeddingController for manual embedding generation			
Estimation
